More than 1 million gallons of seawater and freshwater systems and habitats

**300+
SPECIES**

**10,000
AQUATIC ANIMALS**

27 TOTAL
EXHIBITS

Multiple global and regional ecosystems represented: Amazon River, Pacific Northwest, Open Ocean, Indo-Pacific, and Ohio's Scioto River.

**BIG
SHARKS**

Big sharks are coming to the region: sand tiger and sandbar sharks!

ONLY AT **WOLFE AQUARIUM**

- No other zoo or aquarium in the country currently features the Scioto River. This local waterway is a rare urban river ecosystem that flows directly through our growing region that features some overlooked but impressive species like the paddlefish and sturgeon.
- The Open Ocean gallery will be the largest aquarium habitat in Ohio, offering guests a view into one of the ocean's most captivating ecosystems – the Tongue of the Ocean – where vibrant shallow reefs transition into the mysterious deep-ocean abyss.
